

# Self-Service Solutions

## CXC 5.0S

Sleek, light and modern multi-function kiosk designed to offer casino integrated, innovative cash handling solutions and critical cash access services. These key services are offered on the CXC 5.0S at a smaller footprint and attractive price point without sacrificing quality.

With full integration with other Everi FinTech products, such as CashClub DCCA/CCCA, Everi Compliance®, and the robust CashClub® Wallet with touchless \$ToGo functionality, these new kiosks give properties an opportunity to move cage-based transactions to the casino floor while still providing traditional functionality like ATM, ticket redemption and bill breaking. Everi's Kiosks continue to provide traditional functionality like ATM, ticket redemption, bill break and currency exchange as well as the addition of new features such as QuikTicket™, access to crypto asset value and Visa quick deposit of gaming tickets back to US bank accounts.

### CASH ACCESS & CASH HANDLING
