

Cryptocurrency

Delivering convenience and simplicity in the liquidity of Blockchain currency to casino patrons, Everi offers the ability to convert cryptocurrency to fiat cash. With partnerships with B4U Financial and BitLine, Everi continues to enhance the encryption and technology by understanding and embracing blockchain technology. Both options produce a service solution that meets all regulatory and compliance requirements and providing cash access that is convenient, simple, and secure.

B4U ATM/Cash Access

Casino customers can now benefit from Everi's B4U ATM Cryptocurrency liquidation via Everi's footprint of ATM and Cash Access Kiosks. Gaming patrons who have access to their cryptocurrency wallets can now withdraw fiat currency from a general purpose ATM. Just select the B4U option on the ATM device and it will direct you scan a QR code to gain access to your wallet.

Features & Benefits

- Maximum of 3 withdrawals per day for a combined \$500 USD per day per crypto wallet user.
- ATM devices only support withdrawal/selling of cryptocurrency for fiat cash. Devices do not allow for any purchase of cryptocurrency.
- Process is very easy to use and intuitive with interaction between wallet and ATM device.
- Accessible, convenient, secured transactions

Cryptocurrency

EBX powered by BitLine

Everi now offers the capability for Crypto Borrowing by providing a secured, reliable and quick access to fiat cash against crypto-collateral. Get cash/chips in just minutes at any casino around the world, at any time. EBX is the only provider of cryptocurrency guarantees by assisting crypto owners to liquidate virtual assets by establishing temporary guarantees without creating taxable events. These guarantees, up to \$1 million, can be used as credit lines for casino customers.

Creating a collateral guarantee is simple and efficient by transferring eligible assets into your BitLine custody account. Customers control the closeout, however BitLine can provide a liquidation service to use customer collateral to cover outstanding balance owed to casino and guarantee fees or a service to “Buy back the Guarantee” that allows for fiat or other assets to be used to pay off the Guarantee and, possibly, avoiding additional liquidation costs or taxable events. The base fee of a Guarantee amount for 30 days is 10%. Customers can receive a 50% rebate if the guarantee is closed within 7 days or 25% if the guarantee is closed more than 7 days but less than 14 days.

Features & Benefits

- Registration and approval takes less than 20 minutes to complete
- All KYC requirements are delivered and approved via BitLine. Neither Everi or Casino Operators facilitate any handling of cryptocurrency assets.
- BitLine utilizes blockchain technology to accept crypto payments and will handle any liquidation due to market volatility.
- BitLine supports most of the main cryptocurrencies including Bitcoin, Ethereum and Tether for its securitized digital asset guarantee. This allows the majority of asset holders worldwide to exchange, store and receive a financial guarantee via BitLine.
